

Does it matter when my incinerator was constructed?

EPA regulations apply to both new and existing (old) incinerators. The table below explains when a unit is considered “existing” versus “new” and gives the citation to the applicable regulations.

Combustion Unit Type	Existing Units	New (or Reconstructed) Units
Large MWC	Began construction on or before 9/20/1994. See 40 CFR Part 62, Subpart FFF	Began construction after 9/20/1994. See 40 CFR Part 60, Subpart Ea and Eb
Small MWC	Began construction on or before 8/30/1999. See 40 CFR Part 62, Subpart JJJ	Began construction after 8/30/1999. See 40 CFR Part 60, Subpart AAAA
HMIWI	Began construction on or before 6/20/1996. See 40 CFR Part 62, Subpart HHH	Began construction after 6/20/1996. See 40 CFR Part 60, Subpart Ec
CISWI	Began construction on or before 11/30/1999. See 40 CFR Part 62, Subpart III	Began construction after 11/30/1999. See 40 CFR Part 60, Subpart CCCC
OSWI	Began construction on or before 12/9/2004. See 40 CFR Part 60, Subpart FFFF for Emission Guidelines (<i>Final Emission Guidelines for State Plans were signed November 30, 2005 . A Federal Plan for existing sources will be made if a State Plan is not submitted by December 16, 2007 Final compliance with the federal Plan will be required no latter than December 16, 2010</i>)	Began construction after 12/9/2004. See See 40 CFR Part 60, Subpart EEEE (<i>Final rule was signed November 30, 2005 and becomes effective June 16, 2006</i>)
